

Central Intelligence Agency

Washington, D.C. 20505

FEB 19 1988

MEMORANDUM FOR: Chairman, NAPA Study
Steering Group

FROM: Hugh E. Price
Director of Personnel

SUBJECT: Informational Material for the NAPA Study Team

1. I have reviewed the list of data requested by the National Academy of Public Administration (NAPA) study team. As you might expect, some of the data will take some time to assemble, and cannot be provided until the team is fully cleared. If you have no objection, I would like to provide the unclassified, readily available data as soon as possible so that the team can get started on their review. They will be supplemented as required throughout the study. Transmitted herewith are:

a. Reference Manual to Career Opportunities in the Central Intelligence Agency.

b. Central Intelligence Agency Human Resource Modernization and Compensation Task Force Preliminary Report - July 1987 Proposed Pay, Personnel and Compensation System.

2. I would also appreciate any comments you might have as to whether this material, or any we submit in the future, is consistent with the types and amounts of data submitted by other community members.
